

The JA-77x Vintage Ribbon Passive Microphone

With a circuit drawing inspiration from the earliest RCA ribbons, the JA-77x is a completely passive 8 ribbon microphone featuring an ultra-thin fluted pure aluminium element tuned to a custom designed dual bobbin transformer.

Designed with a relatively low noise FET circuit and a 2 micron thick element, our JA-77x microphones have been crafted using only the highest quality components then meticulously tuned and tested by hand.

The lo-fi, old school and very dirty sound of retro analogue electronics is here. Loads of personality and surprisingly practical.

- 2 μ m Low Tension Fluted Aluminium Ribbon Element
- Figure-Eight Pattern
- <350 ohm Impedance
- 30hz to 16khz Frequency Response
- -18db(A weight) Noise
- .5% Distortion @ 134db
- Custom Dual Bobbin Transformer Output
- Fixed 5m Microphone Cable
- Custom Yolk-Mount
- Protective Nylon Bag
- A Very Dark Mood
- Aluminium Road Case
