

JA-87F Large Condenser Microphone

With a circuit inspired by the world's most sought after Neumann U-87 microphone, the JA-87F is a large diaphragm multi-pattern condenser microphone with a German style 6 micron capsule, Class A amplifier and an exceptional transformer delivering balanced output.

Custom engineered with classic circuit design, our JA-87F microphones have been crafted using only the highest quality components then finely tuned and tested by hand. The JA-87F is truly comparable to highly desirable vintage microphones costing several times as much.

Here is your chance to get a real first class sound at a realistic price.

- 35mm 6µm Gold Sputtered Centre Fed German Style Capsule
- Switchable Omni, Cardioid & Figure-Eight Patterns
- <200 ohm Impedance
- 25hz to 20khz Frequency Response
- -17db(A weight) Noise
- 48v Requirement
- 100hz Roll-off Switch
- -10db Pad Switch
- .5% Distortion @ 125db
- Class 'A' FET Circuit
- Transformer Output
- Premium Robust Shock-Mount
- Aluminium Road Case
